Customer Reviews

What People Says...

 Tania Mullan Brisbane, Australia “ I love Equal Ideas. As a Mum with MS it is great to find a platform where human diversity is not just accepted - but celebrated. I also appreciate the gifts available for my wonderful support workers who deserve recognition for the value they add to my quality of life”	 Jessica Smart Brisbane, Australia “ I had the pleasure of seeing some prototype samples from Equal Ideas recently and can honestly say I have a great feeling about this new business and the offerings available. One to watch and sign up for. I can't wait to make my first purchases very soon.	 Connor Grzesiak Brisbane, Australia “ Equal Ideas” is not just a passion project, but a labor of love born out of a genuine care to not only recognize people of all abilities but to influence a culture of real change and real appreciation for people's unique stories through raising awareness. It's a powerful mission statement I believe our world needs right now more than ever to challenge the majority of indifference.
