WHAT'S INSIDE

FEATURES

Discover the TerraCottem principle

USES

TerraCottem is a soil conditioner, used worldwide by horticultural experts to create thriving plantings of turf, annuals & perennials, shrubs and trees.

CASE STUDIES

TerraCottem consists of root growth activators, fertilisers, hydroabsorbent co-polymers and carrier material. Available in Australasia, TerraCottem is offered with expert support services.

PRODUCTS

TerraCottem is an especially powerful tool when facing challenging growing conditions. In poor soils where water is limited, TerraCottem's soil conditioning properties produce results and resilience.

ABOUT TERRACOTTEM

Learn more about TerraCottem Products

The world's leading soil conditioner and soil conditioning technology

TerraCottem® is a soil conditioner, used worldwide by horticultural experts to create thriving plantings of turf, annuals & perennials, shrubs and trees. As a soil conditioner, TerraCottem® is an especially powerful tool when facing challenging growing conditions. In poor soils where water is limited, TerraCottem's soil conditioning properties produce results and resilience. Golf courses, sports fields, public gardens, roof gardens, revegetation projects, street tree avenues - in each of these situations TerraCottem® increases establishment, reduces plant stress and creates sustainable landscapes that perform. Developed by the University of Ghent (Belgium), TerraCottem® is designed to improve the water and nutrient retention capacity, the structure, the aeration, and therefore the quality and performance of growing media. TerraCottem® consists of root growth activators, fertilisers, hydroabsorbent co-polymers and carrier material. Available in Australasia, TerraCottem® is offered with expert support services.

94 TERRACOTTEM COMPLEMENT
It was developed originally for agricultural users who were losing TerraCottem each time they pulled a crop from the soil.

92 TERRACOTTEM TURF
Specially formulated to improve the quality of turf, seeded grass or sprigs.

96 TERRACOTTEM UNIVERSAL
The original TerraCottem and still the one to use in most applications.

TESTIMONIALS
